

Muhammad Zohaib Shaukat Ali

JUNIOR FRONTEND DEVELOPER

PROFESSIONAL SUMMARY

I am a devoted junior front-end web developer who has a passion for building dynamic and responsive websites. My expertise includes HTML, CSS, Tailwind, JavaScript, and a basic understanding of React and Next.js. To improve the accuracy of every line of code I write or modify, I harness AI tools that not only enhance but also streamline the development process by providing innovative solutions to front-end problems. With a keen eye for detail combined with creativity, I flourish in teamwork situations and strive to produce top-notch web apps that leave users speechless at their best! Keen on learning from just about anything new! An update on current trends or technologies helps me stay afloat amidst ever-changing industry challenges.
